600S Camera Repair Notice

To our valued customers,

This letter is to serve notice that Spectral Instruments will soon discontinue the service and repair of all 600S cameras. We have been repairing these cameras now for a period of several years on a 'best effort' basis, and the results of this have been declining. The components used in the camera are quickly becoming impossible to replace and has resulted in a very large increase in repair time and cost. The consumption of our valuable resources (and yours) has led us to the conclusion that repair and service of these cameras must be terminated.

We will not issue any more RMA's for these cameras past October 31, 2013.

We hope our motivations for this are understood. Please do contact us with any questions.

Best regards,

A handwritten signature in black ink, appearing to read "KC", with a long horizontal flourish extending to the right.

Keith Copeland
